

Welcome to Year 7,

Here at Milford Haven School we all work together and look out for each other. When you first walk onto the school grounds you will probably stand there with butterflies in your stomach and think 'OMG that school is HUGE'. It's actually not that bad, yes it's big but you get used to it really quickly.

On my first day i was very nervous but i planned with my friends to meet at the gate before we went into school so i wasn't on my own. This was better because we were all together and going through the same thing. As the day went on i felt a lot better, i wasn't so nervous and started to enjoy it more. The second day I loved it, I was more comfortable, and got used to most of the areas.

I really like Milford Haven School because you get to choose from lots of different things that you want for lunch, you can even buy ice-cream. You can choose between a hot meal and a cold meal, there are a variety of pastas, baguettes, sandwiches and lots more. Tuna baguette is my favourite. I buy one every day! The school doesn't take money so you need to make sure your account is topped up or you can bring money into school and use the coin loader to top up your account. This way tops us immediately but online takes 24 hours.

When it comes to lessons we work on a 2 week timetable, week 1 and week 2. They are labelled for you already in your diary so it's easy to follow. In the back of your diary will be your lessons that you have. It is very different to other primary schools because for different subjects you go to different classrooms. Because there are so many children and teachers there is more than one maths class and more than one english but they are all in the same areas, such as maths area is above science area, technology area is up past the canteen. Once you do it a few times it will get easier. If you get lost, stop someone that you see and ask them for help.

You get to do lots more in Milford Haven School, you get the chance to go on some amazing trips, you get to learn different musical instruments if you want to. There are gym clubs in the morning which are really fun. You can join rugby teams or hockey teams if you are interested in this.

There is a library in the school, you will have your own library number so that you can take books out, you are expected to read everyday so always have a book in your bag.

You need to bring in your own pens and pencils and rulers and stuff, you need to have these out ready with your diary at the start of every lesson.

Milford Haven School is a good school to be part of. Don't be scared, there are lots of people here that are very kind and friendly that will help you out when you need it.

Good Luck in Year 7. I hope you enjoy it as much as I do.
