

Hi my names Ollie, Im sure your scared, worried and nervous about coming up to secondary school.

When you first come up the school will feel pretty big, but trust me after 2 weeks or so the school will shrink massively. Some science experints in primary weren't amazing, but trust me they are so cool in secondary.

The best about the Comp is the break time. At break we have clubs on for everyone theres football on the astro you can play basckett ball but the best thing is the cantine. In primary you given food and you couldnt chose, however in secondary you get to chose from a masive variety of food!

So trust me, dont be scared. See you soon, bye!!!
